REPORT TO BOARD ON ACTE VISION CONFERENCE

Kristy reported she attended the Association of Career and Technical Education (ACTE) national conference in Nashville, TN with Rich Barratt and Danica Wooster. She had several key takeaways from the conference including marketing techniques and harvesting new ideas from CTE schools across the country. Connecting with Maine CTE and national CTE networking were also key to the group. Kristy presented a PowerPoint presentation to the Board on the experience. Kristy spoke about her desire to hold a national signing day at MCST. She spoke about using "key phrases" to attract students into various programs at MCST. Another key concept she learned about is "Words are your Superpower" which focuses on language students can use and shared a rubric as an example. Kristy spoke about what student success looks like and ways to measure their success including industry credentials and work experience. Danica spoke about meeting other Special Education teachers from other states and plans to continue networking with them in the future. Taylor asked about statistics on earning potential for CTE students in the workforce. He also asked about the impact of AI and how it was discussed at the conference. Scott spoke to the Board about a recent workshop he attended in Bangor on AI, sponsored by Educate Maine.

AD HOC COMMITTEE ON K-8 CTE PROGRAMMING

Matt Speno spoke about his research on K-8 programming for CTE. He shared his excitement with the Board. Matt plans to meet with the board committee members in January. State law already allows for CTE education for Middle School students. Paul expressed his concern that we would be stepping on curriculum in our sending schools. [Mike Felton exited the meeting at 6:45 PM.] Bobby explained how Chapter 232 governs CTE Education. He felt that the concept of K-8 CTE programming has been met with great success in St. George and we can ease into a process with our sending schools as well. Matt used a PowerPoint presentation to outline his goals for the committee which includes finding out the needs of each school and what we can offer in terms of CTE programming. [Loren Andrews exited the meeting at 6:58 PM.] [Paul Coster exited the meeting 7:02 PM.] Several board members mentioned their concerns about the disruption to curriculum in our sending schools and potential issues as a result.

DIRECTOR UPDATE

Bobby informed the Board that he is meeting with the Facilities Committee on January 5th. He discussed a specific issue regarding our DEP Stormwater permit that was issued in 2017. We have been in touch with Bill Lane at Gartley Dorsky regarding the original permit. Bobby is part of a working group reviewing Chapter 232 which has not been revised in forty years. We have wrapped up almost all our preliminary budget meetings with teachers. The online student application is now live in Camden and will be soon in Medomak and Oceanside high schools. Student tours will begin in January for eighth graders in the region. Bobby and Heidi Nolan met with Fisher Engineering to discuss a cooperative welding program. SteelPro is also interested in a partnership with us as well. Danny asked if we can have an update on negotiations at the next board meeting.

ADJOURNMENT

Bob declared the meeting adjourned at 7:18 PM.

Next Board Meeting: January 28, 2026
